DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 9 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 recites the use of a compound according to any of claims 1 to 6 in the manufacture of a medicament but does not recite the necessary methodological steps for the same.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 3, 7, 8 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Jones et al (WO 93/13079) and Reitz (WO 93/04682).

Jones et al disclose sulfonamide-substituted benzylamines (see page 53, compound 51 and page 57, compound 57).

Reitz teaches sulfonamide-substituted benzylamines (see page 50, Table 4, compounds 104-106). Reitz also teaches that the compounds of his invention are also useful in treatment of disorders of the central nervous system such as anxiety and aggression (see page 2, lines 8-10) and also a composition comprising the compounds of his invention (see page 60, claim 27).

These disclosures of Jones and Reitz are deemed to meet the limitations of claims 1, 2, 3, 7, 8 and 10.

Conclusion

1. Claims 1-3 and 7-10 are rejected.
2. Claims 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
